Features

Caps to print on

This selection of caps is very well suited for printing. The construction of the caps leaves plenty of space thus facilitating decoration and presenting the logo to perfection.

4 Panel

Division of cap into 4 segments. Advantage: A large advertising space without annoying seams on front panels

Reflex

IQseen is the brand for high reflective materials. With an even distribution around the body this material will make the wearer visible of a distance up to 160 meters. IQseen silver reflective materials fulfill the requirements of the EN 471. Millions of glass beads reflect the light back to its source. The wearer of the product becomes more visible and the motorist has more time to react. This makes the difference! Clearly visible!
